with the professional trading element assuming full charge of the market fluchave been conducting the liquidation of the accounts of the concerns embarrassed by last week's stock market smash apparently recognized the non-existence of any substantial market to sell on, with the INVESTMENT SECURITIES result that for the first time since the failures were announced the list at the of exceptional declines on the sale of small lots of special stocks. A great deal of Wall Street's interest naturally centred around the probable showing of to-morrow's weekly statement of averages of the associated banks. A quite generally held opinion evidently existed, though there did not appear to be any especial basis for it, that the loan account of the banks will this week reflect the payment of the \$40,000,000 of Pennsylvania Railroad loans, as well as the recent stock market liquidation, by exhibiting a substantial decrease. A reported large decrease in the loans, in the existing temper of Wall Street, will undoubtedly be construed very favorably, while another large increase in cash holdings, favorable as it may really be, if unaccompanied by large loan reduction, is quite likely to be ignored in much the same way as have been the large cash gains of the two previous weeks. The preliminary figures as to the known movements of money at this centre, made up to-day, indicate another heavy cash gain. Calculations as to this gain varied from \$7,000,000 to in excess of \$8,000,000an extraordinary showing, which represents not only receipts of Klondike and Australian gold, but remittances of currency from all parts of the United States, though particularly from Boston, Philadelphia, Pittsburg and other nearby and Eastern cities. Doubtless the decline in the market, with its attendant calls for margins, has played a part in this movement. The publication of the preliminary figures as to the cash movement exerted no influence upon the stock market be-Coupons payable at the United States Mortgage and Trust Company, 55 Cedar St. New York, on and after August 1, 1903. department also narrowed, with bond prices

The quotations for American shares cabled from the London market before our opening showed irregularity, and seller of stocks to the estimated extent of about 20,000 shares, buying scarcely anything. Foreign exchange rates, however, were not affected by this selling, their tone continuing easy. There is very good reason for the belief that at the recent low levels London was a very considerable buyer of American securities. It was, in fact, stated in an important banking quarter to-day that these European investments have been the chief factor in causing the recent decline in exchange rates. So far as general money market conditions were oncerned, the situation was unchanged to-day. There was a Winslow, Lanier & Co., 59 Cedar St., N.Y. City. Shipments... 19,000 24,000 380,000 18,000

There was a general disposition to liquidate in wheat to-day and in the absence of marked support prices declined. The cables were disappointing, foreign houses sold, most of the crop and weather news was favorable, the Argentine shipments were larger than expected, the crop reports from that country were bearish, and foreign and outside interests sold. At one time there was a slight raily on buillish crop reports from some Northwestern points, a pretty good export demand, reports of unsettled weather in Europe and covering of shorts, but it was only temporary. Armour was supposed to be selling to some extent at the West. English markets were unchanged to \$4d lower, while Parls was 55 centimes ligher to 20 lower. The Argentine shipments were 1,207,000 bush., against 896,000 last week and 32,000 last year: thus far this season 50,70,000 bush. 32,000 last year: thus far this season 50,70,000 bush. The Nebraska Labor Bureau estimates the crop of that State at 40,600,000 bush., against 2,727,000 last year. Chicago received 64 cars, of which 26 were of contract grade. The exports for the week, according to Bradstreet, were 3,191,42 bush., against 1,12,606,624 bush., against 16,548,840 in the same time last year. The Modern Miller said: While some of the threshing returns on hard winter wheat are disappointing, the average is up to expectation, and a large amount is going to Northwestern spring wheat than was raised last year is indicated. While some of the threshing returns on hard winter wheat and accumulative centres for supplies of wheat."

Corn was easier owing to further beneficial rains, lower temperatures, liquidation and nore orless short selling for a turn. The cables were disappointing, being unchanged to 1, da higher. Chicago received 161 cars, of which 162, da higher. Chicago received 161 cars, of which 162, da higher.
